JOURNAL OF THE AMERICAN PHARMACEUTICAL ASSOCIATION

Published in Two Monthly Editions under Supervision of the Committee on Publications with the Approval of the Council

Committee on Publications:

GEORGE F. ARCHAMBAULT, *Chairman*

ROBERT P. FISCHELIS — HUGO H. SCHAEFER

J. WARREN LANSDOWNE — STEPHEN WILSON

SCIENTIFIC EDITION

Editor

JUSTIN L. POWERS

Assistant Editor

SAMUEL W. GOLDSTEIN

Advertising Manager

ROBERT I. BISCHOFF

INDEX TO VOLUME XLVII

INDEX TO AUTHORS

INDEX TO SUBJECTS

JANUARY TO DECEMBER, 1958

AUTHOR INDEX

A

Alexander, W. M., *see* Warren, R. J., 853

Anthony, P. Z., and Geever, J. E., an identity test for iodinated derivatives of tyrosine and thyronine, particularly triiodothyronine and thyroxine, 394

Araujo, O. E., and Belcastro, P. F., a study of the effects of ultrasonics on the particle size of certain suspended pharmaceuticals, 309

Argus, M. F., Gryder, J. M., Seepe, T. L., Caldes, G., and Ray, F. E., excretion and distribution studies with *o*-, *m*-, and *p*-chloroacetanilide-Cl^{36} in rats and guinea pigs, 516

Autian, J., *see* Sciarra, J. J., 144, 180
——*see* Swartz, C. J., 490, 649

B

Baichwal, M. R., *see* Baichwal, R. S., 537

Baichwal, R. S., Baichwal, M. R., and Khorana, M. L., antibacterial and antifungal properties of β-naphtol derivatives V, 537

Ballard, B. E., and Goyan, F. M., the calibration and use of direct reading isotonicity meters, 40

Bandelin, F. J., the effect of pH on the efficiency of various mold inhibiting compounds, 691

Banes, D., Houk, A. E. H., and Wolff, J., the reserpine, rescinnamine, and deserpidine content of rauwolfia roots, 625; a note on the assay of digitoxin preparations, 686

Banker, G. S., Christian, J. E., and DeKay, H. G., the uniformity of distribution of phosphorus compounds in tablet matrices using radioactive tracer techniques, 628

Bartilucci, A. J., DiGirolamo, R., and Eisen, H., cyanocobalamin (vitamin B_{12}) II. Further studies of the effect of ascorbic acid degradation products on cyanocobalamin, 42

Barua, A. K., *see* Raman, S. P., 559

Baumann, C. A., *see* Lhoest, W. J., 254

Beal, H. M., *see* Singiser, R. E., 6

Beal, J. L., *see* Sayed, M. D., 544
——*see* Schramm, L. C., 326

Becker, C. H., *see* Cadwallader, D. E., Jr., 894
——*see* Crisafi, R. C., 363

Beckloff, G. L., *see* Wenzel, D. G., 338

Beckloff, G. N., *see* Wenzel, D. G., 844

Belcastro, P. F., *see* Araujo, O. E., 309

Bennett, A. G., *see* Vinson, L. J., 635

Bergman, G. H., *see* Galysh, F. T., 141

Berman, M. L., and Youngken, H. W., Jr., the occurrence of a free amino pool in cultures of *Claviceps litoralis* Kawatani, 888

Bhansali, K., *see* Lach, J. L., 48

Biles, J. A., *see* Penprase, W. G., 523

Blackburn, D. W., *see* Pernarowski, M., 585

Blake, M. I., *see* Fibranz, L., 133
——*see* Shelver, W., 72

Blaug, S. M., *see* Lach, J. L., 46, 48
——Hickman, E., and Lach, J. L., a study of moisture vapor transmission through closures, 54

Blubaugh, F. C., Zapapas, J. R., and Sparks, M. C., an enteric compression coating I. *In vitro* studies, 857

Boenigk, J. W., *see* Deeb, E. N., 807

Bondi, A., Jr., *see* Robinson, M. J., 874
——*see* Swintosky, J. V., 136, 753

Bone, J. N., and O'Day, D. W., synthesis and bioteesting of metallic surfactants, 795

Booth, A. N., and DeEds, F., the toxicity and metabolism of dihydroquercetin, 183

Booth, R. E., *see* Wagner, J. G., 580

Bope, F. W., *see* Morozowich, W., 173

Borke, M. L., and Kirch, E. R., synthesis and investigation of certain biological activities of some thiophosphoric acid derivatives, 461

Bousquet, W. F., and Christian, J. E., the excretion and tissue distribution of C^{14}-carbonyl salicylamide in the rat, 542

Boxill, G. C., Nash, C. B., and Wheeler, A. G., comparative pharmacological and toxicological evaluation of N-acetyl-*p*-aminophenol, salicylamide, and acetylsalicylic acid, 479

Brodie, D. C., Huitric, A. C., and Kumler, W. D., some anticonvulsant, skeletal muscle relaxing, and toxic properties of a series of substituted cyclohexanones, 240

Bruening, C. F., Hall, W. L., and Kline, O. L., a rapid determination of the relative purity of vitamin B_{12} (cyanocobalamin) in pharmaceutical products, 15

Buckley, J. P., *see* Horovitz, Z. P., 718

Buckwalter, F. H., and Dickison, H. L., the effect of vehicle and particle size on the absorption, by the intramuscular route, of procaine penicillin G suspensions, 661

Burckhalter, J. H., *see* Caldwell, H. C., 799
——*see* Nobles, W. L., 77, 82, 86

Burkman, A., *see* Desai, C. H., 589

Busse, L. W., *see* Lhoest, W. J., 254

Buxton, J. A., *see* Holzaepfel, J. H., 423

C

Cadwallader, D. E., Jr., Becker, C. H., Winters, J. H., and Marcus, D., a note on particulate matter encountered in some dextran injections, 894
——and Husa, W. J., the effect of zinc acetate on red corpuscles, 703; isotonic solutions VI. The permeability of red corpuscles to various salts of organic acids, 705

Caldes, G., *see* Argus, M. F., 516

Caldwell, H. C., Seiwald, R. J., and Burckhalter, J. H., the synthesis and proof of structure of N-alkylated oxidiazolones, 799

Call, T. G., and Patterson, J. A., protective activity of some flavonoid materials against the acute toxicity of adrenergic compounds to rats, 847

Calvo, R., *see* Putney, B. F., 205

Cannon, J. G., and Webster, G. L., polyphosphoric acid in the Bischler-Napieralski reaction, 353

Carmichael, R. G., *see* Ridolfo, A. S., 869

Carr, C. J., *see* Lynch, T. A., 816

Cavallito, C. J., and Jewell, R., modification of rates of gastrointestinal absorption of drugs I. Amines, 165
——and O'Dell, T. B., modification of rates of gastrointestinal absorption of drugs II. Quaternary ammonium salts, 169

Chakravarty, D. C., and Jones, J. W., quaternary salts of 8-(dialkylaminoalkoxy)-caffeine, 233

Chang, S. L., the use of active iodine as a water disinfectant, 417

Chatten, L. G., *see* Pernarowski, M., 211
——*see* Yokoyama, F., 548

Childs, R. F., and Picchioni, A. L., a note on a new versatile, photoelectric cell drop counter, 533

Chorney, W., *see* Peets, E. A., 280

Christian, J. E., *see* Banker, G. S., 628
——*see* Bousquet, W. F., 542
——*see* Collins, G. F., 25
——*see* Crabtree, R. E., 602
——*see* Lieberman, H., 493
——*see* Mantsavinos, R., 29, 570
——*see* Stark, J. F., 223
——*see* Swartz, H. A., 701

Chulski, T., and Forist, A. A., the effect of some solid buffering agents in aqueous suspension on prednisolone, 553

Clausen, L. W., *see* Taub, A., 235

Coker, S. T., a note on a simple small animal respirometer, 686

Colarusso, R., *see* Schmall, M., 839

Cole, J. R., and Gisvold, O., a preliminary phytochemical investigation of *Digitalis lutea* first year growth, 654

Collins, C. C., *see* Eiler, J. J., 497

Collins, G. F., and Christian, J. E., the study of the effect of certain chemicals on perspiration flow, 25

Cooper, J., *see* Kuramoto, R., 175
——*see* Lachman, L., 871

Core, A. C., and Kirch, E. R., separation of some hydroxyanthraquinones by filter paper electrophoresis, 513

Cox, B. C., Heim, H. C., and Poe, C. F., the paper chromatography and electrophoresis of selected therapeutic agents I. The paper chromatography of antihistaminic agents, 226

Crabtree, R. E., Data, J. B., and Christian, J. E., a study of the oxidative metabolism of acetylsalicylic, salicylic, and gentisic acid in fevered animals, 602

Crane, F. A., *see* Smolenski, S. J., 359

Crisafi, R. C., and Becker, C. H., a study of natural sponge as a disintegrating agent in compressed tablets, 363

Cross, J. M., *see* Discher, C. A., 689

Crowell, W. J., *see* Riegelman, S., 115, 123, 127

Cushing, I. B., and Davis, R. V., purification of fructose on ion exchange resins, 765

Cwalina, G. E., *see* Faust, R. E., 1

Czerwinski, A. L., bromide excretion as affected by chloride administration, 467

D

Dale, J. K., *see* Wagner, J. G., 580

Data, J. B., *see* Crabtree, R. E., 602

Davis, R. V., *see* Cushing, I. B., 765

Deardorff, D. L., *see* Winters, E. P., 608

Dechene, E. B., a note on the extraction and fluorescence of some oxidation products of reserpine, 757

Deeb, E. N., and Boenigk, J. W., preservative action of combined bacteriostatic agents I. Preservative action of chlorobutanol in combinations with certain other bacteriostatic agents, 807

DeEds, F., *see* Booth, A. N., 183

Deffner, M., and Issidorides-Deffner, A., effect of the pH of buffered paper on the *Rf* of alkaloids, 343

DeKay, H. G., *see* Banker, G. S., 628
——*see* Stanko, G. I., 104
——*see* Stark, J. F., 223

Desai, C. H., Burkman, A., and Salisbury, R., chronic oral toxicity of aerated silica gel, 589

Deshpande, S. M., and Natarajan, R., potentiometric and amperometric titrations of ascorbic acid, 633

Detrick, L. E., Upham, H. C., Highby, D., and Haley, T. J., dextran localization and retention in normal and X-ray irradiated rabbits, 93

Dickison, H. L., *see* Buckwalter, F. H., 661

DiGirolamo, R., *see* Bartilucci, A. J., 42

Discher, C. A., Cross, J. M., Smith, P. F., and Iannarone, M., the synthesis and antifungal properties of 6-fluorothymol, 689

Doerr, D. W., *see* Ecanow, B., 507

Duerr, J. D., *see* Pappas, B. A., 215

Dulin, A., and Martin, J. W., Jr., monoderivatives of methylene citric acid, 851

Dungan, K. W., *see* Lish, P. M., 371

Dusenberry, J. E., and Schwarting, A. E., the culture of *Claviceps purpurea* IV. Lipogenesis, 721

Duvall, R. N., *see* Foye, W. O., 282, 285

E

Ecanow, B., and Doerr, D. W., dispersing agents in reaction media, 507

Edmonson, T. D., and Goyan, J. E., the effect of hydrogen ion and alcohol concentration on the solubility of phenobarbital, 810

Eiler, J. J., Goyan, J. E., Tuck, L. D., and Collins, C. C., an electrolytic servo-system and the study of oxidative phosphorylation, 497

Eisen, H., *see* Bartilucci, A. J., 42

Ellin, R. I., Kondritzer, A. A., and Rosenblatt, D. H., studies on the purity of dimercaprol (BAL), 112
——*see* Rippie, E. G., 529

Engelbert, H., *see* Tucker, S. J., 849
Epstein, E., and Kaminsky, D., the synthesis and pharmacology of N-substituted aminoalkyl esters of chlorophenyl carbamic acid, 347
Eriksen, S. P., Pauls, J. F., and Swintosky, J. V., a mathematical interpretation of the kinetics of elevated temperature stability studies as applied to solid formulations, 697

F

Faust, R. E., Cwalina, G. E., and Ramstad, E., antineoplastic action of chemical fractions of the fruit of *Citrullus colocynthis* on sarcoma-37, 1
Feigl, F., and Silva, E., a note on the detection of ephedrine by spot test, 460
Feldman, E. G., *see* Foye, W. O., 831
——Mahler, W., and Koehler, H. M., principles in the spectrophotometric determination of propoxycaine in the presence of procaine, 676
Fibranz, L., Blake, M. I., and Miller, C. E., colorimetric determination of thymol in thyme oil, 133
Fisher, A. L., and Keasling, H. H., the neuromuscular activity of a series of bis(3 - hydroxydimethylpiperidinium bromide) ethers, 438
Fleming, W. J., Rowe, E. J., and Meyers, D. B., a comparison of the pharmacological properties of two nitrated cyclohexanols, 368
Flesher, A. M., *see* Haley, T. J., 401
Foltz, E. L., *see* Swintosky, J. V., 136
Ford, L. A., *see* Hayden, A. L., 157
Forist, A. A., catalase in *Cunninghamella Blakesleeana* H-334, 185
——*see* Chulski, T., 553
——and Theal, S., spectrophotometric determination of steroid esters, 520
Foss, N. E., *see* Sciarra, J. J., 144
Foye, W. O., Lange, W. E., and Feldmann, E. G., comparative activities and toxicities II. Sugar and amino acid derivatives of bis-(4-aminophenyl)-sulfone, 831
——and Duvall, R. N., metal chelates and antitubercular activity III. *p*-Aminosalicylic acid chelate *vs.* complex, 282; metal chelates and antitubercular activity IV. Isonicotinyl hydrazide, 285
——Van de Workeen, I. B., Jr., and Matthes, J. D., copper complexes of aromatic dithiocarbamates and their antifungal activity, 556
Frederick, K. J., *see* Ober, S. S., 667
Fujimoto, J. M., and Way, E. L., studies on the structure of "bound" morphine, 273
Fujita, T., and Mann, D. E., Jr., further studies on *l*-arterenol tachyphylaxis in the isolated venus mercenaria heart, 90

G

Galysh, F. T., Bergman, G. H., and Miller, C. E., pharmacological studies on bis-(2-methyl-2-nitropropyl) sulfite, 141
Gambier, A. S., and Rahn, E. P. G., vitamin B_{12} in the presence of vitamin B_1 and niacinamide in aqueous combinations, 356
Gardier, R. W., *see* Warren, R. J., 853
Gautieri, R. F., and Mann, D. E., Jr., determination of the minimal carcinogenic doses of methylcholanthrene on mouse epidermis, 350
Geever, J. E., *see* Anthony, P. Z., 394
Gelberg, A., *see* Hanker, J. S., 728
Geschickter, C. F., *see* O'Malley, W. E., 263
——*see* Winkler, G., 260
Gibson, W. R., Swanson, E. E., and Meyers, D. B., the pharmacology of two structurally isomeric monophenyl substituted 1,2,4-triazoles, 778
Gisvold, O., *see* Cole, J. R., 654
——enzymatic decomposition of digitalis glycosides II, 594; enzymatic decomposition of digitalis glycosides III, 600
Gloor, W. T., Jr., and Youngken, H. W., Jr., the effects of certain carbon sources on the growth of *clavicepsliitoralis*, 218; the oxidative metabolism of certain Krebs cycle acids in tissue cultures of *clavicepsliitoralis*, 220
Goettsch, R. W., and Wiese, G. A., the synthesis of some substituted thianaphthene-2-carboxamides and their antifungal properties, 319
Goodman, L. S., *see* Weaver, L. C., 645
Gorzynski, E. A., *see* Neter, E., 651
Goyan, F. M., *see* Ballard, B. E., 40
——a thermistor thermometer and direct-reading isotonicity meter, 783
Goyan, J. E., *see* Edmonson, T. D., 810
——*see* Eiler, J. J., 497
Granston, A. E., *see* Wyk, R. W. V., 193
Greenberg, L., and Ingalls, J. W., bactericide/leukocide ratio: a technique for the evaluation of disinfectants, 531
Greenblatt, E. N., and Thoms, R. K., a simplified method to determine adrenergic blocking activity of drugs, 431
Griffith, R. S., *see* Gruber, C. M., Jr., 867
Grote, I. W., and Woods, M., studies on antacids VI. Adsorption effects of various aluminum antacids upon some simultaneously administered synthetic anticholinergic drugs, 785
Gruber, C. M., Jr., *see* Ridolfo, A. S., 869
——Ridolfe, A. S., and Tosick, W. A., an enteric compression coating II. *In vivo* studies with barium sulfate potassium iodide and barium sulfate tablets, 862
——Ridolfo, A. S., and Griffith, R. S., an enteric compression coating III. *In vivo* studies with Ilotycin tablets, 867
Gryder, J. M., *see* Argus, M. F., 516
Guttman, D. E., and Meister, P. D., the kinetics of the base-catalyzed degradation of prednisolone, 773

H

Haemmerli, G. W., *see* O'Malley, W. E., 263
Haley, T. J., *see* Detrick, L. E., 93
——Flesher, A. M., and Komesu, N., the pharmacology of 4-[2-(5-phenyloxazoyl)]-1-methylpyridinium chloride and *p*-toluenesulfonate, 401
Hall, N. A., *see* Runkis, J. O., 758
Hall, W. L., *see* Bruening, C. F., 15
Hammarlund, E. R., and Pedersen-Bjergaard, K., a simplified graphic method for the preparation of isotonic solutions, 467
Hammerness, F. C., and Thompson, J. O., a study of the effect of lubricant and fines on a tablet granulation, 58
Hammond, P. V., studies on the effects of ephedrine in the presence of cocaine, 67
Hanker, J. S., Gelberg, A., and Witten, B., colorimetric estimation of some cholinergic esters. Application to the demonstration of acetylcholinesterase activity, 728
Harris, L. E., *see* Levin, H. J., 820
Hawkins, T. L., Jr., *see* Rosenblum, I., 560
Hayden, A. L., Ford, L. A., and Houk, E. H., the separation and determination of reserpine, deserpidine, and rescinnamine by partition column chromatography, 157
Head, W. F., Jr., and Lauter, W. M., synthesis of epoxide polymers of steroidal compounds, 563; surface activity of ethylene oxide and propylene oxide polymers of steroidal compounds, 567
Heim, H. C., *see* Cox, B. C., 226
——*see* McKersie, D. E., 591
Henry, P. A., *see* Maruzzella, J. C., 294, 471

SUBJECT INDEX

A

Absorption of anions, the kinetics of rectal absorption II, 123

Absorption, distribution, and excretion, sulfaethylthiadiazole III. Kinetics of, 136

Absorption, gastrointestinal, modification of rates of, of drugs I. Amines, 165; II. Quaternary ammonium salts, 169

Absorption rate process, the kinetics of rectal absorption I. Preliminary investigations into the, 115

Absorption of undissociated molecules, the kinetics of rectal absorption III, 127

Acetophenetidin, the analysis of combination of acetylsalicylic acid, and caffeine with other drugs, 276

N-Acetyl-*p*-aminophenol, acetylsalicylic acid, and salicylamide, a comparison of human serum levels of, following oral administration, 477

salicylamide, and acetylsalicylic acid, comparative pharmacological and toxicological evaluation of, 479

Acetylcholinesterase activity, application to the demonstration of. Colorimetric estimation of some cholinergic esters, 728

Acetylsalicylic acid (A. S. A.) tablets, studies with. An enteric compression coating IV, 869

the analysis of combination of, acetophenetidin, and caffeine with other drugs, 276

N-acetyl-*p*-aminophenol, and salicylamide, comparative pharmacological and toxicological evaluation of, 479

salicylamide, and N-acetyl-*p*-aminophenol, a comparison of human serum levels of, following oral administration, 477

Acetylsalicylic, salicylic, and gentisic acid in fevered animals, a study of the oxidative metabolism of, 602

Acidic solids, theoretical and experimental study of influences of bases and buffers on rates of dissolution of. Investigation of drug release from solid II, 376

Acridines with amino-hydroxyalkylanilino side chains, antiamebic agents IV. Quinolines and, 82

Adrenergic blocking activity of drugs, a simplified method to determine, 431

blocking agents, *β*-haloethylamine, a polarographic study of, 570

Aerosol formulation of certain rare earth compounds as potential antiperspirants, synthesis and, 29

Alfalfa growth factor, concentration of an, for *Neurospora silophila* and its use in microbiological assay of pyridoxine, 413

Alkaloid accumulation, leaf, the effects of atropine and 2,4-dichlorophenoxyacetic acid on, in certain members of the *Solanaceae*, 803

Alkaloidal salts, the permeability of red corpuscles to various. Isotonic solutions VII, 711

Alkaloids, effect of pH of buffered paper on the R_f of different, 343

Alkaloids, a note on several new, from *Vinca rosea* Linn. I: leurosine, virosine, pervinine, 834

N-Alkylated oxadiazolones, the synthesis and proof of structure of, 799

2-Allyl-2-phenylglutarimide, synthesis of. Glutarimides V, 882

N-Allylnormorphine, a study of the selective antagonism by, against meperidine, metadone, and morphine, 323

Aluminum antacids, adsorption effects of various, upon some simultaneously administered synthetic anticholinergic drugs. Studies on antacids VI 785

Aluminum salts, the interaction of epidermal protein with, 509

Amines, modification of rates of gastrointestinal absorption of drugs I, 165

Aminoalkyl esters of chlorophenyl carbamic acid, the synthesis and pharmacology of N-substituted, 347

Amino-hydroxyalkylanilino side chains, antiamebic agents IV. Quinolines and acridines with, 82

***p*-Aminosalicylic acid:** chelate *vs.* complex, metal chelates and antitubercular activity III, 282

Ammonium compounds, quaternary, the identification and quantitative analysis of certain, using ultraviolet absorption spectra, 211

Ammonium salts, quaternary, modification of rates of gastrointestinal absorption of drugs II, 169

Amperometric titration, the determination of chlorobutanol in pharmaceuticals by, 46

Amphiachyris dracunculoides (DC) Nutt., the flavonoid constituents of, 820

Amphiphilic compounds, the dispersion of liquids in aqueous solutions of, 334

Amyl (isoamyl) nitrite in ampuls I, kinetics of the degradation of. Nature of reaction products and influence of temperature, oxygen, alcohol, water, and acid on the overall rate, 613

Amyl nitrite ampuls II, kinetics of degradation of. Stabilization, 621

Anions, the kinetics of rectal absorption II. The absorption of, 123

Antacids VI, studies on. Adsorption effects of various aluminum antacids upon some simultaneously administered synthetic anticholinergic drugs, 785

Anthelmintic activity of some lactones and peroxides, a study of the, 792

Antiamebic agents IV. Quinolines and acridines with amino-hydroxyalkylanilino side chains, 82

Antibacterial and antifungal properties of *β*-naphthol derivatives V, 537

Antibiotics (tetracycline) and some commercial preparations, nonaqueous titration of the, 548

Anticholinergic drugs, adsorption effects of various aluminum antacids upon some simultaneously administered synthetic. Studies on antacids VI, 785

Anticonvulsant activity of pyrazole and of pyrazole with aliphatic substitutions at the three position, 70

drug combinations: diphenylhydantoin combined with other antiepileptics, 645

Anticonvulsants and sedatives, the use of microscopic and X-ray diffraction methods for the identification of, 523

Antineoplastic action of chemical fractions of the fruit of *Citrullus colocynthis* on sarcoma-37, 1

Antiepileptics, diphenylhydantoin combined with other: anticonvulsant drug combinations, 645

Antifungal activity, copper complexes of aromatic dithiocarbamates and their, 556

the *in vitro*, of essential oils, 250

and antibacterial properties of *β*-naphthol derivatives V, 537

properties, and the synthesis of, 6-fluorothymol, 689

properties, the synthesis of some substituted thianaphthene-2-carboxamides and their, 319

studies, synthesis and, on new organic sulfur compounds, 399

Antihistamines, the effect of some, upon the respiration of rat heart homogenates, 591

Antihistaminic agents, the paper chromatography and electrophoresis of selected therapeutic agents I. The paper chromatography of, 226

Anti-inflammatory effects of Romilar CF, 313

Antimicrobial activity of perfume oils, the, 471

Antioxidants, the correlation of polarographic half-wave potentials of, with their antioxygenic efficiency, 436

the polarographic behavior of certain, at the wax-impregnated graphite electrode, 433

Antiperspirants, synthesis and aerosol formulation of certain rare earth compounds as potential, 29

Antipyrine and phenacetin, ion exchange method for determination of caffeine in presence of, 248

Antiseptic products, evaluation of oral, on buccal epithelial tissue, 635

Antiveratrinic activity of lactones and peroxides, 269

***l*-Arterenol** tachyphylaxis, further studies on, in the isolated *venus mercenaria* heart, 90

Ascorbic acid degradation products, further studies of the effect of, on cyanocobalamin II, 42

potentiometric and amperometric titrations of, 633

Aspirin, decomposition of, in the solid state, 329

Atropine and 2,4-dichlorophenoxyacetic acid, the effects of, on leaf alkaloid accumulation in certain members of the *Solanaceae*, 803

Attapulgite, activated, the adsorption of enterobacterial endotoxins by, 651

B

Bactericide/leucocide ratio: a technique for the evaluation of disinfectants, 531

Bacteriostatic agents I, preservative action of combined. Preservative action of chlorobutanol in combinations with certain other bacteriostatic agents, 807

BAI (dimercaprol), studies on the purity of, 12

Barley as a host plant for the cultivation of ergot, the suitability of, 574

Barley seedlings, the ontogenesis of gramine in, 97

Belladonna leaf, U. S. P., the application of ultrasonic energy to the extraction of, 823

Benzyl penicillin procaine, the formation and structure of the iron salt of, using infrared spectroscopy, 443

Bis-(2-methyl-2-nitropropyl) sulfite, pharmacological studies on, 141

Bis(3-hydroxydimethylpiperidinium bromide) ethers, the neuromuscular activity of a series of, 438

Bis-(4-aminophenyl)-sulfone, sugar and amino acid derivatives of. Comparative activities and toxicities II, 831

Bis-quaternary ammonium compounds, the pharmacology of some, 718

Bischler-Napieralski reaction, polyphosphoric acid in the, 353

Bithionol, development of a germicidal soap containing, 317

Blood coagulating principles, an investigation of the, from *Ceanothus Americanus*, 816

concentration, steady state, and urinary excretion data following repeated oral doses. Sulfaethylthiadiazole IV, 753

water-sorbitol solutions, a bacteriological evaluation of, 180
Bromide excretion as affected by chloride administration, 467
Bromide intoxication II. Biochemical and hematological aspects, 560
Brookfield RVF Viscometer, a note on the use of the, with thickening agent dispersions, 758
Bryophyllum calcycinum Salisb., metabolism of labeled acetate in, 493
Buffering agents in aqueous suspension on prednisolone, the effects of some solid, 553

C

Caffeine, ion exchange method for determination of, in presence of antipyrine and phenacetin, 248

8-(dialkylaminoalkoxy)-, quaternary salts of, 233
with other drugs, the analysis of combination of acetylsalicylic acid, acetophenetidin, and, 276

Carbon sources, the effects of certain, on the growth of *Claviceps litoralis*, 218

C^{14}-carboxyl salicylamide in the rat, the excretion and tissue distribution of, 542

Carbopol, a report on the oxidative degradation of neutralized, 442

Carboxymethylcellulose (HCMC) and cornstarch as tablet disintegrants, comparison of. Properties and applications of powdered polysaccharide acids IV, 396

Cascara extracts, dioctyl sodium sulfosuccinate, and danthron, peristaltic-stimulating and fecal-hydrating properties, of, in the mouse and rat, 371

Catalase in *Cunninghamella Blakesleeana* H-334, 185
a study of the *in vitro* reaction of, and hemin with organic mercury compounds, 201

Ceanothus Americanus, an investigation of the blood coagulating principles from, 816

Chalcone derivatives, an evaluation of the pharmacologic activity of a new series of, 640

Chloramphenicol, attempted synthesis of a vinylog of, 86

Chloride administration, bromide excretion as affected by, 197

Chloroacetanilide-Cl^{36}, *o*-, *m*-, and *p*-, excretion and distribution studies with, in rats and guinea pigs, 516

Chlorobenzene with acetous perchloric acid, a study of the titration of organic bases in, 585

Chlorobutanol in pharmaceuticals, the determination of, by amperometric titration, 46
preservative action of, in combinations with certain other bacteriostatic agents. Preservative action of combined bacteriostatic agents I, 807

Chlorpromazine, an investigation of the possible potentiation of ethinamate activity by, 827

Cholinergic esters, colorimetric estimation of some. Application to the demonstration of acetylcholinesterase activity, 728

Chromatographic separation and determination of diphenylhydantoin and phenobarbital, 48

Chromatographic- spectrophotometric method for the separation and determination of colchicine, 359

Chromatography, gas, quantitative determination of a series of malonic esters by, 457
paper, and electrophoresis of selected therapeutic agents I. The paper chromatography of antihistaminic agents, 226
paper, of the I^{131}-labeled iodopropylidene glycerol with autoradiographic identification, 315
partition column, the separation and determination of reserpine, deserpidine, and rescinnamine by, 157
partition, separation of 1,2,3-trimercaptopropane from dimercaprol by, 529

Citrullus colocynthis on sarcoma-37, antineoplastic action of chemical fractions of the fruit of, 1

Claviceps litoralis, the effects of certain carbon sources on the growth of, 218
the oxidative metabolism of certain Krebs cycle acids in tissue cultures of, 220
Kawatani, the occurrence of a free amino pool in cultures, of, 888

Claviceps purpurea IV, the culture of. Lipogenesis, 721

Clavine alkaloids, some factors influencing the saprophytic production of, by *Claviceps purpurea*, 787

Chlorophenol carbamic acid, aminoalkyl esters of, the synthesis and pharmacology of N-substituted, 347

Closures, a study of moisture vapor transmission through, 54

Coating I, an enteric compression. *In vitro* studies, 857; II. *In vivo* studies with barium sulfate potassium iodide and barium sulfate tablets, 862; III. *In vivo* studies with Ilotycin tablets, 867; IV. Studies with acetylsalicylic acid (A. S. A.) tablets, 869
tablet color, with pigments, 849

Cocaine, studies on the effects of ephedrine in the presence of, 67

Colchicine, a chromatographic-spectrophotometric method for the separation and determination of, 359

Colocynth, *see Citrullus colocynthis*, 1

Color stability, a study of the effect of certain pharmaceutical materials on, 175

Colorimetic determination of thymol in thyme oil, 133

Copper complexes of aromatic dithiocarbamates and their antifungal activity, 556

Cornstarch and carboxymethylcellulose (HCMC) as tablet disintegrants, comparison of. Properties and applications of powdered polysaccharide acids IV, 396

Crystallography, a note on the, of *d*-propoxyphene hydrochloride, 228

Cunninghamella Blakesleeana H-334, catalase in, 185

Cyanocobalamin (vitamin B_{12}) in pharmaceutical products, a rapid determination of the relative purity of, 15; II. Further studies of the effect of ascorbic acid degradation products on cyanocobalamin, 42

Cyclohexanols, a comparison of the pharmacological properties of two nitrated, 368

Cyclohexanones, some anticonvulsant, skeletal muscle relaxing, and toxic properties of a series of substituted, 240

Cyclooctylalkylamines I, the pharmacology of some new. Vasopressor activity and the effect on the heart rate, 446

D

Daemia extensa R. Br., chemical investigation of, 559

Danthron, dioctyl sodium sulfosuccinate, and cascara extracts, peristaltic-stimulating and fecal-hydrating properties of, in the mouse and rat, 371

Depot preparations, procaine penicillin G, a rheological study of, 667

Deserpidine, reserpine, and rescinnamine content of rauwolfia roots, 625

Deserpidines, the separation and determination of reserpine, and rescinnamine by partition column chromatography, 157

Dextran injections, a note on particulate matter encountered in some, 894

Dextran localization and retention in normal and X-ray irradiated rabbits, 93

Dialkylaminoalkyl esters and amides derived from 3-hydroxy- and 3-alkoxy-2-naphthoic acids, 734

2,4-Dichlorophenoxyacetic acid and atropine, the effects of, on leaf alkaloid accumulation in certain members of the *Solanaceae*, 803

Dielectric constant, the use of an approximate, to blend solvent systems, 855

Digitalis glycosides II, enzymatic decomposition of, 594; III. Enzymatic decomposition of, 609

Digitalis lutea first year growth, a preliminary phytochemical investigation of, 654

Digitoxin preparations, a note on the assay of, 686

Dihydroquercetin, the toxicity and metabolism of, 183

Dimercaprol (BAL), studies on the purity of, 12
the effect of, on amine oxidase and amino acid decarboxylase of the normotensive and hypertensive rat kidney, 844
separation of 1,2,3-trimercaptopropane from, by partition chromatography, 529

N-Dimethylaminopropyl-1-methyl-3,8-dimethyl-3-azobicyclo (3,2,1) octane dimethochloride (Wy-1395), studies on the antihypertensive action of, 263

Dioctyl sodium sulfosuccinate, danthron and cascara extracts, peristaltic-stimulating and fecal-hydrating properties of, in the mouse and rat, 371

Diphenylhydantoin combined with other antiepileptics: anticonvulsant drug combinations, 645
and phenobarbital, the chromatographic separation and determination of, 48

Disintegrant, tablet, Amberlite Resin XE-88 as a, 487

Disintegration times of enteric coated tablets, correlation of *in vivo* with *in vitro*, 681

Dispersing agents in reaction media, 507

Dispersion with ultrasound I. A study of, 32; II. A study of, 36

Dispersions, thickening agent, a note on the use of the Brookfield RVF viscometer with, 758

Dissolution rate of mixtures of weak acids and tribasic sodium phosphate, 300

Dissolution rates, comparative, of weak acids and their sodium salts, 297

Dithiocarbamates, aromatic, and their antifungal activity, copper complexes of, 556

Drop counter, photoelectric cell, a note on a new versatile, 533

Drugs, fluorescence of powdered vegetable, under ultraviolet radiation, 715

Drug release, investigation of, from solids II. Theoretical and experimental study of influences of bases and buffers on rates of disolution of acidic solids, 376

Dyes, several certified, and quaternary ammonium compounds, a study of the interaction between, 871

E

Electrokinetic measurements, evaluation of suspensions using, 104

Electrolytic servo-system and the study of oxidative phosphorylation, an, 497

Electrophoresis, filter paper, separation of some hydroxyanthraquinones by, 513
the paper chromatography and, of selected therapeutic agents I. The paper chromatography of antihistaminic agents, 226

Endotoxins, enterobacterial, the adsorption of, by activated attapulgite, 651

Enteric coated tablets, correlation of *in vivo* with *in vitro* disintegration times of, 681
compression coating, I. *In vitro* studies, 857; II. *In vivo* studies with barium sulfate potassium iodide and barium sulfate tablets, 862; III. *In vivo* studies with Ilotycin tablets, 867; IV. Studies with acetylsalicylic acid (A. S. A.) tablets, 869

Enterobacterial endotoxins, the adsorption of, by activated attapulgite, 651

Ephedrine, a note on the detection of, by spot test, 460
in the presence of cocaine, studies on the effects of, 67

Epidermal protein, the interaction of, with aluminum salts, 509

Epinephrine, degradation of, induced by bisulfite, 723
a kinetic study of acid-catalyzed racemization of, 426

Epoxide polymers of steroidal compounds, synthesis of, 563

Ergot, a study on couch grass, 326
the suitability of barley as a host plant for the cultivation of, 574

Essential oils, the *in vitro* antibacterial activity of, and oil combinations, 294
the *in vitro* antifungal activity of, 250

Ethanol, correlation between anticonvulsant activity and plasma concentration of, 769

Ethinamate activity, an investigation of the possible potentiation of, by chlorpromazine, 827

1-Ethinyl cycloheryl carbamate, the detection of, toxicological specimens and its separation from a mixture of other drugs, 366

Ethylene oxide and propylene oxide polymers of steroidal compounds, surface activity of, 567

F

Fines and lubricant, a study of the effect of, on a tablet granulation, 58
Flavonoid constituents of *Amphiachyris dracunculoides* (DC) Nutt., 820
materials, protective activity of some, against the acute toxicity of adrenergic compounds to rats, 847
Fluorescence of powdered vegetable drugs under ultraviolet radiation, 715
6-Fluorothymol, the synthesis and antifungal properties of, 689
Formulations, solid, a mathematical interpretation of the kinetics of elevated temperature stability studies as applied to, 697
Fructose, purification of, on ion exchange resins, 765

G

Gastrointestinal absorption, modification of rates of, of drugs I. Amines, 165; II. Quaternary ammonium salts, 169
Gel point of methylcellulose, the effect of certain additives on the, 44
Gentisic, acetylsalicylic, and salicylic acid in fevered animals, a study of the oxidative metabolism of, 602
Germicidal soap, development of a, containing bithionol, 317
Glucose solutions, a study of the decomposition of, 101
Glutarimides V. Synthesis of 2-allyl-2-phenylglutarimide, 882
Glycosides, digitalis II, enzymatic decomposition of, 594; III. Enzymatic decomposition of, 600
Gramine, the ontogenesis of, in barley seedlings, 97
Gum turpentines, chemical composition of, of pines XXIX. A report on *Pinus ponderosa* from five localities, 404; XXX. A report on *Pinus serotina, P. tenuifolia,* and *P. yunnanensis,* 410

H

β-Haloethylamine adrenergic blocking agents, a polarographic study of, 570
Hemin, a study of the *in vitro* reaction of catalase and, with organic mercury compounds, 201
Hexamethylenimine analgesic, the metabolic fate of a, 20
Histamine liberating and hypotensive actions of 1-phenyl-2-dimethylaminoethoxymethyl tetrazole hydrochloride (TT-209), the relationships between the, 606
Homatropine, the kinetics of the hydrolysis of, 878
3-Hydroxy- and 3-alkoxy-2-naphthoic acids, dialkylaminoalkyl esters and amides derived from, 734
Hydroxyanthraquinones, separation of some, by filter paper electrophoresis, 513
Hypercholesterolemia, the effect of nicotine on experimental, in the rabbit, 338
Hypotensive and histamine liberating actions of 1-phenyl-2-dimethylaminoethoxymethyl tetrazole hydrochloride (TT-209), the relationships between the, 606

I

I^{131}-Exchange-tagging characteristics, study of certain physical and, of iodopropylidene glycerol, 303
I^{131}-Labeled iodopropylidene glycerol with autoradiographic identification, paper chromatography of, 315
Ilotycin tablets, *in vivo* studies with. An enteric compression coating III, 867
Iodine, the distribution and fate of, in iodopropylidene glycerol in the rat, 149
the use of active, as a water disinfectant, 417
Iodopropylidene glycerol, the distribution and fate of iodine in the rat, 149
paper chromatography of I^{131}-labeled, with autoradiographic identification, 315
a study of certain physical and I^{131}-exchange-tagging characteristics of, 303
Irradiated rabbits, dextran localization and retention in normal and X-ray, 93
Isoamyl nitrite in ampuls I, kinetics of the degradation of. Nature of reaction products and influence of temperature, oxygen, alcohol, water, and acid on the overall rate, 613
Isoetharine, the pharmacologic actions of the bronchodilator drug, 744
Isoniazid-*p*-aminosalicylic acid combination, examination of the physical chemical basis for the, 749
Isonicotinyl hydrazide, metal chelates and antitubercular activity IV, 285
Isotonic solutions, a simplified graphic method for the preparation of, 107
Solutions VI. The permeability of red corpuscles to various salts of organic acids, 705; VII. The permeability of red corpuscles to various alkaloidal salts, 711
Isotonicity meter, a thermistor thermometer and direct-reading, 783
Isotonicity meters, the calibration and use of direct reading, 40
Isotope dilution analysis of salicylic acid, an inverse, 701

K

Ketonic Mannich bases and the products of their reduction and bromination, 77
Krebs cycle acids, the oxidative metabolism of certain, in tissue cultures of *Claviceps litoralis,* 220

L

Labiatae family, the sterol and triterpene content of the, 731
Lactones and peroxides, antiveratrinic activity of, 269
and peroxides, a study of the anthelmintic activity of some, 792
Leukocide/bactericide ratio: a technique for the evaluation of disinfectants, 531
Leurosine, vitrosine, perivine: a note on several new alkaloids from *Vinca rosea* Linn. I, 834
Lipids, skin, investigation of human, I, 187; II, 192
Lipogenesis. The culture of *Claviceps purpurea* IV, 721
Lubricant and fines, a study of the effect of, on a tablet granulation, 58

M

Macromolecules, interaction of preservatives with. I. Binding of para-hydroxybenzoic acid esters by Tween 80, 289
Malonic esters, quantitative determination of a series of, by gas chromatography, 457
Mannich bases, ketonic, and the products of their reduction and bromination, 77
Meperidine, methadone and morphine, a study of the selective antagonism by N-allylnormorphine against, 323
Mercury compounds, organic, a study of the *in vitro* reaction of catalase and hemin with, 201
Metabolism, oxidative, of acetylsalicylic, salicylic, and gentisic acid in fevered animals, a study of the, 602
oxidative, of certain Krebs cycle acids in tissue cultures of *Claviceps litoralis,* 220
Metallic soap-petrolatum ointment bases, 6
Methadone, meperidine, and morphine, a study of the selective antagonism by N-allylnormorphine against, 323
Methylcellulose, the effect of certain additives on the gel point of, 44
Methylcholanthrene, determination of the minimal carcinogenic dose$_{50}$ of, on mouse epidermis, 356
Methylene citric acid, mono-derivatives of, 851
pharmacology of some mono-derivatives of, 853
Mint oils, some new constituents of, 265
Mint species, a biogenetic arrangement of, 267
Mold inhibiting compounds, various, the effect of pH on the efficiency of, 691
Molecular refraction, correlation of, with structure in the terpene series, 62
Morinda citrifolia Linné I, a study of the root of, 162
Morphine, studies on the structure of "bound," 273
a study of the selective antagonism by N-allylnormorphine against meperidine, methadone, and, 323
Mucilaginous seeds, a histological study of some, 544
Mydriatic agents, statistical problems related to the measurement of potency of, 245

N

β-Naphthol derivatives V, antibacterial and antifungal properties of, 537
Neuromuscular activity of a series of Bis(3-hydroxydimethylpiperidinium bromide) ethers, 438
Nicotine, the effect of, on experimental hypercholesterolemia in the rabbit, 338
2-Nitro-2-methylpropanol-1, phosphite and phosphate esters of. Nitroorganophosphorus compounds I, 72
Nitro-organophosphorus compounds I. Phosphite and phosphate esters of 2-nitro-2-methylpropanol-1, 72
8-Nitrotheophyllinates, preparation of some, 173
Nonaqueous titration of the tetracycline antibiotics and some commercial preparations, 548

O

Oils, medicinal white, determination of the heat stability of, 885
perfume, the antimicrobial activity of, 471
Ointment base, a comparative study of surfactant influence on the release of ions from an emulsified, 223
Ointment bases, metallic soap-petrolatum, 6
Ointments, ophthalmic, a bacteriological study of, 193
Ontogenesis of gramine in barley seedlings, 97
Optical rotation, the assay of procaine penicillin in sesame oil by, 215
Organic acids, the permeability of red corpuscles to various salts of. Isotonic solutions VI, 705
Organic bases in chlorobenzene with acetous perchloric acid, a study of the titration of, 585
Oxadiazolones, N-alkylated, the synthesis and proof of structure of, 799

P

pH, the effect of, on the efficiency of various mold inhibiting compounds, 691
Parahydroxybenzoic acid esters, binding of, by polyoxyethylene 20 sorbitan monooleate (Tween 80). Interaction of preservatives with macromolecules I, 289
Particle size, a study of the effects of ultrasonics on the, of certain suspended pharmaceuticals, 309
Penicillin, procaine, the assay of, in sesame oil by optical rotation, 215
benzyl, the formation and structure of the iron salt of, using infrared spectroscopy, 443
Perfume oils, the antimicrobial activity of, 471
Perivine, leurosine, virosine: a note on several new alkaloids from *Vinca rosea* Linn. I, 834

Peroxides, and lactones, antiveratrinic activity of, 269
and lactones, a study of the anthelmintic activity of some, 792
Perspiration flow, the study of the effect of certain chemicals on, 25
Petrolatum-metallic soap ointment bases, 6
Phenacetin, ion exchange method for determination of caffeine, in presence of antipyrine and, 248
Phenobarbital and diphenylhydantoin, the chromatography separation and determination of, 48
effect of hydrogen ion and alcohol concentration on the solubility of, 810
Phenothiazine derivatives, a note on the photosensitivity of, 760
1 - Phenyl - 2 - dimethylaminoethoxymethyl tetrazole hydrochloride (TT-209), the relationships between the histamine liberating and hypotensive actions of, 606
Phenyl, mono-, substituted 1,2,4-triazoles, the pharmacology of two structurally isomeric, 778
4 - [2 - (5 - Phenyloxazoyl)] - 1 -methylpyridinium chloride and *p*-toluenesulfonate, the pharmacology of, 401
Phosphate and phosphite esters of 2-nitro - 2 - methylpropanol - 1. Nitroorganophosphorus compounds I, 72
Phosphite and phosphate esters of 2-nitro-2-methylpropanol-1. Nitroorganophosphorus compounds I, 72
Phosphorous compounds in tablet matrices, the uniformity of distribution of, using radioactive tracer techniques, 628
Phosphorylation, oxidative, an electrolytic servo-system and the study of, 497
Photoelectric cell drop counter, a note on a new versatile, 533
Photosensitivity of phenothazine derivatives, a note on the, 760
Pigments, tablet color coating with, 849
Pines XXIX, chemical composition of gum turpentines of. A report on *Pinus ponderosa* from five localities, 404; XXX. Composition of gum turpentine of. A report on *Pinus serotina, P. tenuifolia,* and *P. yunnanensis,* 410
Pneumoperitoneum, toxicity studies of sulfur hexafluoride SF_6 in, 197
Poison ivy fruit fat, analysis of, 50
Polarographic behavior of certain antioxidants at the wax-impregnated graphite electrode, 433
half-wave potentials, the correlation of, of antioxidants with their antioxygenic efficiency, 436
study of β-haloethylamine adrenergic blocking agents, 570
Polyoxyethylene 20 sorbitan monooleate, interaction of preservatives with macromolecules I. Binding of *p*-hydroxybenzoic acid esters by, 289
Polyphosphoric acid in the Bischler-Napieralski reaction, 353
Polysaccharide acids IV, properties and applications of powdered. Comparison of carboxymethylcellulose (HC-MC) and cornstarch as tablet disintegrants, 396
Prednisolone in compressed tablets, comparison of methods of assay of, 580
the effects of some solid buffering agents in aqueous suspension on, 553
the kinetics of the base-catalyzed degradation of, 773
in tablet formulations, a quantitative papergram assay method for, 576
Preservatives, interaction of, with macromolecules I. Binding of parahydroxybenzoic acid esters by Tween 80, 289
Procaine penicillin, the assay of, in sesame oil by optical rotation, 215
Procaine penicillin G depot preparations, a rheological study of, 667
suspensions, the effect of vehicle and particle size on the absorption, by the intramuscular route, of, 661
Procaine, principles in the spectrophotometric determination of propoxycaine in the presence of, 676
Propoxycaine in the presence of procaine, principles in the spectrophotometric determination of, 676
d-**Propoxyphene** hydrochloride, a note on the crystallography, 228
Propylene oxide and ethylene oxide polymers of steroidal compounds, surface activity of, 567
Protein, epidermal, the interaction of, with aluminum salts, 509
Pyrazole, anticonvulsant activity of, and of pyrazole with aliphatic substitutions at the three position, 70
Pyridoxine, the microbiological assay of, concentration of an alfalfa growth factor for *Neurospora sitophila* and its use in, 413

Q

Quaternary ammonium compounds, the identification and quantitative analysis of certain, using ultraviolet absorption spectra, 211
and several certified dyes, a study of the interaction between, 871
Quaternary ammonium salts, modification of rates of gastrointestinal absorption of drugs II, 169
Quaternary salts of 8-(dialkylaminoalkoxy)-caffeine, 233
Quinolines and acridines with aminohydroxyalkylanilino side chains. Antiamebic agents IV, 82

R

Radioactive tracer techniques, the uniformity of distribution of phosphorus compounds in tablet matrices using, 628
Rare earth compounds as potential antiperspirants, synthesis and aerosol formulation of certain, 29
Rat heart homogenates, the effect of some antihistamines upon the respiration of, 591
Rauwolfia plants, biosynthesis of C^{14}-reserpine by, 280
Rauwolfia roots, the reserpine, rescinnamine, and deserpidine content of, 625
Rectal absorption I. the kinetics of. Preliminary investigations into the absorption rate process, 115; II. The absorption of anions, 123; III. The absorption of undissociated molecules, 127
Red corpuscles, the effect of zinc acetate on, 703
Rescinnamine, reserpine, and deserpidine content of rauwolfia roots, 625
the separation and determination of reserpine, deserpidine, and, by partition column chromatography, 157
C^{14}-**Reserpine,** biosynthesis of, by rauwolfia plants, 280
Reserpine, a note on the extraction and fluorescence of some oxidation products of, 757
rescinnamine, and deserpidine content of rauwolfia roots, 625
the separation and determination of, deserpidine, and rescinnamine by partition column chromatography, 157
Respirometer, small animal, a note on a simple, 686
Rheological study of procaine penicillin G depot preparations, 667
Romilar CF, anti-inflammatory effects of, 313
Rotation, specific, a note on, and temperature coefficient, 229

S

Sages, trichome variability in commercial, 160
Salicylamide, acetylsalicylic acid, and N-acetyl-*p*-aminophenol, a comparison of human serum levels of, following oral administration, 477
acetylsalicylic acid, and N-acetyl-*p*-aminophenol, comparative pharmacological and toxicological evaluation of, 479
C^{14}-carbonyl, the excretion and tissue distribution of, in the rat, 542
Salicylic, acetylsalicylic, and gentisic acid in fevered animals, a study of the oxidative metabolism of, 602
Salicylic acid, an inverse isotope dilution analysis of, 701
Saprophytic production of clavine alkaloids, some factors influencing the, by *Claviceps purpurea,* 787
Sarcoma-37, antineoplastic action of chemical fractions of the fruit of *Citrullus colocynthis* on, 1
Sedatives and anticonvulsants, the use of microscopic and X-ray diffraction methods for the identification of, 523
Seeds, a histological study of some mucilaginous, 544
Serotonin, note on sensitivity of the isolated perfused rat uterus to, 535
Servo-system, an electrolytic, and the study of oxidative phosphorylation, 497
Silica gel, chronic oral toxicity of aerated, 589
Sodium alginate solutions, the role of residual calcium in the viscosity changes of, 455
Sodium iodate and sodium iodide, the effect of orally administered, on blood sugar response to thiourea in rats, 56
Sodium iodide and sodium iodate, the effect of orally administered, on blood sugar response to thiourea in rats, 56
Sodium phosphate, tribasic, dissolution rate of mixtures of weak acids and, 300
Solvent systems, the use of an approximate dielectric constant to blend, 855
Sorbitol-boric acid-water solutions, a bacteriological evaluation of, 180
Spectrophotometric - chromatographic, method for the separation and determination of colchicine, 359
Spectrophotometric determination of sterols in wool fat, 205
Sponge, a study of natural, as a disintegrating agent in compressed tablets, 363
Stability, the effect of pH on the. Tragacanth solution III, 695
heat, determination of the, of medicinal white oils, 885
studies as applied to solid formulations, a mathematical interpretation of the kinetics of elevated temperature, 697
of sulfadiazine sodium injection IV, study of. The determination of oxygen uptake of sulfadiazine sodium with antioxidants in solution, 649
and viscosity, the relation of method of preparation to the. Tragacanth solutions I, 451
Steroid esters, spectrophotometric determination of, 520
Steroidal compounds, surface activity of ethylene oxide and propylene oxide polymers of, 567
synthesis of epoxide polymers of, 563
Sterol and triterpene content of the *Labiatae* family, 731
Sterols in wool fat, the spectrophotometric determination of, 205
Stress resistance in thymectomized rats, 813
Sulfadiazine sodium injection III, study of stability of. An investigation of degradation products of sulfadiazine sodium, 490; IV. The determination of oxygen uptake of sulfadiazine sodium with antioxidants in solution, 649
Sulfaethylthiadiazole III. Kinetics of absorption, distribution, and excretion, 136; IV. Steady state blood concentration and urinary excretion data following repeated oral doses, 753
Sulfamethylthiadiazole: human blood concentration and urinary excretion data following oral doses, 874
Sulfur compounds, synthesis and antifur l studies on new organic, 399
Sulfur hexafluoride SF_6, toxicity studies of, in pneumoperitoneum, 197
Surfactant influence, a comparative

study of, on the release of ions from an emulsified ointment base, 223
Surfactant metallic, synthesis and biotesting of, 795
Suspended pharmaceuticals, a study of the effects of ultrasonics on the particle size of certain, 309
Suspension formulation, some physical chemical aspects of, 657
Suspensions, evaluation of, using electrokinetic measurements, 104
procaine penicillin G, the effect of vehicle and particle size on the i. m. absorption of, 661

T

Tablet color coating with pigments, 849
Tablet disintegrant, Amberlite Resin XE-88 as a, 487
Tablet granulation, a study of the effect of lubricant and fines on a, 58
Tablet matrices, the uniformity of distribution of phosphorus compounds in, using radioactive tracer techniques, 628
Tablets, enteric coated, correlation of *in vivo* with *in vitro* disintegration times of, 681
medicinal, zein as a film type coating for, 608
a study of natural sponge as a disintegrating agent in compressed, 363
Tachyphylaxis, further studies on *l*-arterenol, in the isolated *venus mercenaria* heart, 90
Temperature coefficient, a note on specific rotation and, 229
Terpene series, correlation of molecular refraction with structure in the, 62
Tetracycline antibiotics and some commercial preparations, nonaqueous titration of the, 548
Theophyllinate salt, hypotensive and toxicologic properties of the, of H-2 (N - dimethylaminoethyl - 4 - methyl-4,7-endoxyperhydro-isoindole dimethonium chloride), 260
Thermistor thermometer and direct-reading isotonicity meter, 783
Thiamine, nonenzymatic destruction of, A chromatographic study of the degradation products, 254
Thianapthene-2-carboxamides, the synthesis of some substituted, and their antifungal properties, 319
3-Thienyl-3-dialkylaminoethyl ketones and related compounds, a note on, 895
Thiophosphoric acid derivatives, synthesis and investigation of certain biological activities of some, 461
Thiourea in rats, the effect of orally administered sodium iodide and sodium iodate on blood sugar response to, 56
Thymectomized rats, stress resistance in, 813
Thymol in thyme oil, colorimetric determination of, 133
Thyme oil, colorimetric determination of thymol in, 133
Thymotic acid, the antipyretic and analgesic activities of, 258
Thyronine and tyrosine, particularly triiodothyronine and thyroxine, an identity test for iodinated derivatives of, 394
Thyroxine, an identity test for iodinated derivatives of tyrosine and thyronine, 394
Tissue cultures, the oxidative metabolism of certain Krebs cycle acids in, of *Claviceps litoralis*, 220
dehydration, plant microtechnique: a note on rapid, 459
***p*-Toluenesulfonate** and 4-[2-(5-phenyl) oxazoyl)]-1-methylpyridinium chloride, the pharmacology of, 401
Tragacanth, gum, jellies, conditions for the preservation of, 235
Tragacanth solutions I. The relation of method of preparation to the viscosity and stability, 451; III. The effect of pH on the stability, 695
Trasentine in solutions, a procedure for the isolation and determination of, 99
1,2,4-Triazoles, monophenyl substituted, the pharmacology of two structurally isomeric, 778
Trichome variability of commercial sages, 160
Triiodothyronine and thyroxine, an identity test for iodinated derivatives of tyrosine and thyronine, 394
1,2,3-Trimercaptopropane, separation of, from dimercaprol by partition chromatography, 529
Triterpene and sterol content of the *Labiatae* family, 731
Tween 80, interaction of preservatives with macromolecules I. Binding of *p*-hydroxybenzoic acid esters by, 289
Tyrosine and thyronine, particularly triiodothyronine and thyroxine, an identity test for iodinated derivatives of, 394

U

Ultrasonic energy, the application of, to the extraction of belladonna leaf, U. S. P., 823
Ultrasonics, a study of the effects of, on the particle size of certain suspended pharmaceuticals, 309
Ultrasound I. A study of dispersion with, 32; II, 36
Ultraviolet absorption spectra, the identification and quantitative analysis of certain quaternary ammonium compounds using, 211
Ultraviolet radiation, fluorescence of powdered vegetable drugs, under, 715
Undissociated molecules, the kinetics of rectal absorption III. The absorption of, 127

V

Vaginal jellies, sensitivity to. Correlation between clinical tests and animal tests, 423
Venus mercenaria heart, further studies on *l*-arterenol tachyphylaxis in the isolated, 90
Virosine, leurosine, perivine: a note on several new alkaloids from *Vinca rosea* Linn. I, 834
Vitamin A, a photometric determination of vitamin D in presence of, 839
Vitamin B_{12} (cyanocobalamin) in pharmaceutical products, a rapid determination of the relative purity of, 15
II. Further studies of the effect of ascorbic acid degradation products on cyanocobalamin, 42
in the presence of vitamin B_1 and niacinamide in aqueous combinations, 356
Vitamin D determination by a chemical method involving chromatography and color inhibition, 385
a photometric determination of, in presence of vitamin A, 839

W

Water disinfectant, the use of active iodine as a, 417
Wool fat, the spectrophotometric determination of sterols in, 205
Wy-1305, studies on the antihypertensive action of N-dimethylaminopropyl - 1 - methyl - 8,8 - dimethyl-3-azobicyclo (3,2,1) octane dimethochloride, 263

X

X-ray irradiated rabbits, dextran localization and retention in normal and, 93

Z

Zein as a film-type coating for medicinal tablets, 608
Zinc acetate, the effect of, on red corpuscles, 703
